

Video Script - Proficient Payment System

When it's time to
boost your team's performance,
Proficient, from XYZ Technology, incorporates years of valuable experience
to help you achieve the next level of excellence.

Using advanced technologies,
Proficient automates routine tasks,
allowing your employees to focus
on areas in the workflow
that require human interaction.

By integrating master data throughout the system,
auto-populating forms as needed,
and allowing vendors to enter and verify their own information,
Proficient reduces issues like

- duplicate data entry
- unnecessary communication
- and other routine, time-consuming tasks

allowing your team to focus on your core business,
significantly reducing the time
and resources involved in routine data processing.

Designed with a low barrier to entry,
so you don't have to disrupt your workflow
to begin seeing improvements,
Proficient offers an affordable
and efficient approach to automation.

It provides an easy way to begin using advanced features like robotics
to improve your workflow.

Proficient can be set-up to meet your requirements,

- using the modules you need,
- on the platforms you prefer,
 - o on premise,
 - o in the cloud,
 - o or any combination in-between.

[FEATURES – ADMINISTRATOR]

For administrators, Proficient is highly configurable and integrates easily into your existing system.

It allows you to define roles, responsibilities, and queues as needed, for teams or individuals.

And the flexible system can be set-up to automatically archive data on **your** schedule.

[WORKFLOW – USERS]

Users can log-in to Proficient with corporate single-sign-on, and make choices from the easy-to-navigate menu based on their role or responsibilities.

The indexing work queue allows users to see items that need attention quickly, and action buttons make performing routine tasks simple.

Proficient immediately sends alerts to stakeholders...
...so they can take action as soon as possible.

A quick click, and they can see the issue and respond.

One final check...
...and Proficient updates your ERP system.

[VENDORS]

Proficient's Vendor Portal is a central location for everything *you* need from your vendors... and everything *they* want to know about your projects...

– including invoices, PO's, payment status and more.

Vendors can enter their own information...
or send it by email...
and Proficient will automatically recognize the data.

Entering an invoice is quick and easy,
whether fulfilling all...
or part,
of a work order or PO.

Vendors can also escalate issues to the support team...
and download their own information.

[DIFFERENTIATORS]

Proficient from XYZ Technology takes your team to the next level...
by using advanced technology that automates boring, repetitive tasks...
while keeping the “human in the loop” for higher level decision-making.

And most important for your bottom line, Proficient is more cost-effective...
...and easier to integrate with your current systems than you may imagine.
Let XYZ show you how Proficient can help you
take your system to the next level.
